

Data Analytics Course — Curriculum

A 6-month, hands-on program taking you from Excel fundamentals to job-ready Data Analytics skills — Excel, Power BI, Tableau, SQL and Python — with 10+ real-world projects and a placement-focused capstone.

Program Overview

- Duration: 6 months | 282 hours
- Batch size: Max 15 students
- Modes: Offline (Sector-14, Gurugram) · Online Live · Hybrid
- Includes: 10+ projects, 6-week internship, placement assistance, course certificate

Module 1 — Excel & Data Analytics Foundations (3–4 weeks)

Master the tool most businesses still depend on: clean, organize, analyse and present business data.

- Advanced Excel formulas, Pivot Tables, Power Query
- Data cleaning, charts & dashboards, MIS reporting
- Data analysis techniques, VBA fundamentals

Outcome: turn a messy spreadsheet into a structured business report.

Module 2 — Power BI, Tableau & Data Visualization (6–7 weeks)

Turn raw numbers into dashboards people can actually understand.

- Power BI, Tableau, DAX
- Data transformation & modeling
- Interactive dashboards, KPI development, data storytelling

Outcome: build a dashboard that highlights trends, performance gaps and opportunities at a glance.

Module 3 — SQL & Python for Data Analytics (5–6 weeks)

Go beyond spreadsheets and work with real data at scale.

- SQL: queries, filtering, joins, aggregations, subqueries
- Python: fundamentals, Pandas, NumPy
- Data cleaning, exploratory data analysis, data visualization

Outcome: extract data from a database, analyse it in Python, and turn findings into business insights.

Your Learning Journey

- Phase 1 — Build Your Foundation (8 days, ~2 hrs/day): Excel + data concepts
- Phase 2 — Turn Data Into Visual Insights (24 days, ~3 hrs/day): Power BI + Tableau
- Phase 3 — Add SQL + Python to Your Skill Set (20 days, ~3 hrs/day): Python, SQL, analysis
- Phase 4 — Build Your Capstone Project (30 days, ~2 hrs/day): a portfolio-ready final deliverable

Sample Projects You'll Build (10+ total)

- COVID-19 Sales Trend Analysis
- E-commerce Customer Segmentation
- Financial Dashboard for Banks
- Retail Inventory Optimization
- ...and 6 more industry-scenario projects across the program

Why WebiGeeks

- Personal, 1-on-1 mentorship — not a forum or ticket queue
- Small batches: max 15 students per batch
- AI-integrated curriculum — ChatGPT, Claude, GitHub Copilot in your workflow
- Placement assistance: resume, mock interviews, LinkedIn, 1000+ hiring partners

Fees

- Standard: ₹1,40,000 (or ₹16,666/month × 6 months)
- Early Bird (before Aug 31): ₹1,28,000 (or ₹14,666/month × 6 months)
